DETAILED ACTION

Response to Remarks

1. Applicants' arguments and amendments, filed on 9/24/01, have been approved and entered. They have been fully considered and they are deemed to be persuasive. Rejections and/or objections not reiterated from previous office actions are hereby withdrawn. The following rejections and/or objections are either newly applied or reiterated. They constitute the complete set presently being applied to the instant application.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-42 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1-42 are vague and indefinite because the phrases "sufficient complementarity" and the word "appropriately" are unclear. Applicant has not giving any definition of what exactly is sufficient for complementarity and for appropriately phosphorylated.
